

Miracles from Heaven

If I ask from you that Do you believe in miracles? Or Can miracles happen? What is a miracle?

A miracle is an event not explicable by natural or scientific laws. If miracles happen who or what behind in it? So many questions and a single incident tells the answers to all these questions.

14 years old Annabel Beam's life story giving us all the answers what we looking for!

"Miracles from heaven" movie based on Miracles from Heaven by Christy Beam which is a true story about her own daughter who had a near-death experience and was later cured of an incurable disease.

Annabel Beam was 5 years old when she was diagnosed with two incurable disorders named pseudo-obstruction motility disorder and antral hypomotility disorder life-threatening digestive disorders kept her in and out of the hospital for years. She has her faith on god until the end, once she had treatments her doctor asks her to remove her cross for her medical purpose but she refuses it and tells that she want to have with her that because of Jesus with her. She said to her mother that she wants to die and go to the heaven where there won't be any pain for her when Jesus with her.

Christy Beam, Annabel mother says that it takes several months to make an appointment with Dr. Nuko in Boston with lots prayers. And strange meets in a restaurant with a lady named Angela Cimino, she helped them to stay by giving them a place in Boston as in the movie they became friends while having chat and she shows Boston to little Annabel.

When Annabel about eight she returned home yet she's having another hospitalization, she went outside to play at the coaxing of her older sister, she climbed a large cottonwood tree and without any warning, the limb on which she was perched cracked and fell. Annabel had no time to catch herself she plunged thirty feet into the hollowed core of the cottonwood, landing head-down. She was unconscious, suspended and trapped for five and a half hours before rescue crews finally succeeded in strapping a harness around her body and raising her to safety.

What happened next is still a mystery to Annabel's mother. Christy Beam explained that Annabel's falling into the tree, which could have killed her, instead healed her. She emerged from the tree trunk wet, bruised, and muddy but otherwise quite well. Inexplicably, when Annabel awoke at the hospital, she felt no more pain. Her distended abdomen had returned to its normal size, and she was able to go to the bathroom. For the first time, after months of uncomfortable tube feedings, she could eat regular food. Her doctors began to wean her off of her medications and eventually, she was released from her pediatric gastroenterologist. "Jesus must have been with that little girl in that tree," said the doctor, "because there's nothing wrong with her!" and also, she didn't have any major injuries after this accident which is completely a miracle.

Annabel shared with her parents what happened in the cottonwood tree. She told that she saw a bright light and her 'MeeMee' was there who died a couple of years before and she knew that she is in heaven. Since she feels no more pain she sat on Jesus lap and asked from Jesus that she wanted to stay in heaven but Jesus replied her "No, Annabel, I have plans for you on Earth that you cannot complete in heaven, but whenever the firefighters get you out, there will be nothing wrong with you."

Reflecting on how her life and the life of her family had been changed by the events surrounding Annabel's illness and miraculous healing, Christy Beam said, "We don't live our lives differently because we never lost our faith. Oh, it was hard and I felt challenged at times. I'd ask, 'Okay, God, do you have a plan? What is your plan?' But we always felt that God is in control of our lives, even over Annabel's illness. Now that she's well, we can stand strong and put an exclamation point behind what we believe."

Some says that this could be hoax that Beam family trying to get famous and be strong in finance since nobody can go to heaven and talk with Jesus and come back, but let me remind you if this whole thing is hoax why would doctors give any scientific explanation for Annabel recovery and why she's didn't have any major injury like broken bones... it can't be explained scientifically which reminds us that it is a Miracle. As catholic, I believe miracles can happen and it can be happening in anywhere, anytime with any person. I personally recommend catholic followers to watch this movie, read this book and never lost your faith in any situation because of Lord with us in every single second of our lives. May God Bless You!
